NEXT

WHAT'S NEW

- New Features:
  - Exterior color Deep Indigo Metallic (GWU).
- Exterior color deletions:
  - Carbon Black Metallic (58U).
  - Graphite Blue Metallic (GXH).
- No Denali Hybrid Model.

YUKON DENALI SNAPSHOT

- The 2014 Yukon Denali and Yukon XL Denali provide a premium appearance, luxurious features, outstanding power and performance, impressive comfort and a comprehensive list of technology features.
- Yukon XL Denali has room for up to eight adults and the most cargo capacity in its class.
- The 2014 Yukon Denali and Yukon XL Denali are available in the following configurations:
  - 2WD/AWD Yukon Denali and Yukon XL Denali.

THE DENALI TARGET CUSTOMER...

...is disciplined, organized and approaches life with a plan.

...is deeply committed to family/kids with a focus on achievement and excellence.

...willingly assumes in-charge roles.

...builds enduring relationships and highly values loyalty and stability.

...seeks out premium brands that represent quality, performance and durability.

...places an emphasis on understated uniqueness.

TARGET DEMOGRAPHICS

Age: 35–45

Median household income: $175,000

Percentage college: 60%

Male/Female: 75%/25%

AWARDS

- Best Overall Value of the Year for Full-Size SUV – IntelliChoice – Yukon Denali

IntelliChoice

- 2013 Best-In-Class Full-Size SUV – Truck Trend Magazine

TRUCK TREND'S 2013 BEST IN CLASS

- The 2014 Yukon Denali and Yukon XL Denali have received NHTSA 5-Star Overall Frontal Crash and 5-Star Overall Side Crash Safety Ratings.

5-Star Safety Ratings
More Stars. Safer Cars.

LUXURY FEATURES

- Yukon Denali models feature a wide range of standard luxury features, such as 12-way power perforated leather-appointed heated and cooled front seats, heated second row seats, tri-zone automatic climate control, a Rear Vision Camera, a touch-screen navigation system and a power liftgate.

WHY IT MATTERS

Denali's premium materials and high feature content make it the most premium and technologically advanced Yukon.

FLEXIBLE SEATING

- Yukon Denali features seating for seven or eight occupants.
- Standard second row captain's chairs or available second row split-folding bench.
- Denali's second row power fold-and-tumble seats are a GM segment-exclusive. Each seat automatically unlatches, folds and tumbles out of the way to provide easy, one-handed access to the third row.
- The 3-passenger, 50/50 split third row seats fold flat and have wheels on the front edge for easy removal and storage.

WHY IT MATTERS

With seating for seven or eight, Denali comfortably accommodates plenty of passengers along with their cargo.

WORLD-CLASS DESIGN, REFINEMENT & ACCOMMODATIONS

- Superb fit-and-finish, extensive use of premium materials, outstanding craftsmanship and an abundance of standard and available luxury features bring Yukon Denali models to a remarkable level of sophistication and refinement.
- With its middle and rear seats folded, Yukon Denali has an impressive 108.9 cubic feet (SWB) or 137.4 cubic feet (LWB) of cargo volume—the most cargo capacity in its class.

WHY IT MATTERS

Yukon Denali and Yukon XL Denali let you take on anything with comfort and style.

VORTEC 6.2L VVT FLEXFUEL V8 WITH SEGMENT-LEADING HORSEPOWER AND TORQUE

- Produces 403 hp and 417 lb.-ft. of torque.
- Features Active Fuel Management, which deactivates four of the eight cylinders when they aren't needed. All eight cylinders reactivate seamlessly when extra power is needed.

WHY IT MATTERS

Denali's and XL Denali's standard 6.2L V8 provides segment-leading hp and torque while still providing good fuel economy.

IMPRESSIVE CONTROL, POWERFUL BRAKES AND STANDARD STABILITRAK WITH TRACTION CONTROL

- Yukon Denali's wide track combines with a low center of gravity for excellent stability. The stiff front frame design, large brakes and standard StabiliTrak with Proactive Roll Avoidance and Traction Control also improve ride and handling.

WHY IT MATTERS

These features, combined with Denali's Autoride real-time damping, eliminate the compromise between a comfortable ride and precise control.

SAFTEY TECHNOLOGIES

- Crash avoidance features include StabiliTrak with Proactive Roll Avoidance, Traction Control, ABS and Side Blind Zone Alert. Occupant protection features include standard dual-stage front air bags, head-curtain side air bags and seat-mounted driver and right front passenger side-impact air bags. OnStar is standard on every model.

WHY IT MATTERS

Yukon Denali's impressive group of safety technologies help ensure a safe driving experience.

STANDARD TOUCH-SCREEN NAVIGATION RADIO

- Includes large touch-screen display, MP3-compatible CD player, 30GB hard drive, voice recognition, Bluetooth for Phone, auxiliary input jack, USB port and Rear Vision Camera.
- Includes Time Shift Recording, which allows you to pause live radio for up to 20 minutes before resuming play.

WHY IT MATTERS

This navigation radio's impressive list of features helps keep you entertained and informed.

EXCEPTIONAL INTERIOR QUIETNESS

- Results from the use of sound-deadening materials, strategic driveline/chassis mounting points, quiet powertrain operation, stiff frame design, extensive door sealing and an aerodynamic exterior.

WHY IT MATTERS

Eliminating unnecessary noise improves a vehicle's acoustic appeal and overall comfort.

2WD/AWD

- Yukon Denali is available in either rear-wheel drive or all-wheel drive configurations.
- All wheel-drive provides maximum traction under all driving conditions. The system uses an advanced viscous technology to automatically and continuously transfer torque as needed. Working smoothly and imperceptibly, the AWD system maintains an optimum front-to-rear torque split.

WHY IT MATTERS

AWD promotes added driver confidence by performing better on slippery roads.

ONSTAR

- The Directions & Connections Plan is standard for the first six months on Yukon Denali and combines all the Safe & Sound Plan services with Turn-by-Turn Navigation, eNav with Google Maps or MapQuest and Destination Download (if equipped with screen-based navigation). Learn more at onstar.com.

WHY IT MATTERS

OnStar is the benchmark for in-vehicle safety, security, communication and convenience services, with more than 16 years of experience and more than six million current subscribers.

EXTERIOR

- **Premium exterior appearance –** A combination of professional grade heritage and bold exterior styling gives Yukon Denali a commanding appearance on the road. It is the perfect combination of powerful presence and subtle refinement. From its signature honeycomb grille, standard 20" chrome wheels, unique exterior chrome accents and monochromatic exterior appointments, Yukon Denali exudes professional grade design.
- **Power liftgate –** May be opened or closed via easy-to-access buttons on the overhead console and by key fob. It can also be opened with a touch pad on the liftgate handle and automatically closed with a button located on the bottom edge of the liftgate.
- **Large power sunroof –** Allows light into the cabin and can be opened for increased air circulation. Includes pop-up wind deflector to reduce wind noise. Available.
- **Standard full-feature mirrors –** For enhanced visibility in all types of weather, Yukon Denali includes heated, power-folding, power-adjustable, body-color outside mirrors with driver-side auto-dimming, integrated turn signal indicators, ground illumination, curb-tilt and memory.
- **Rear Park Assist –** For added convenience when reversing, this standard system uses four ultrasonic sensors in the rear bumper to detect objects up to 8' away from the rear of the vehicle when moving slowly in Reverse. After sensing an object, it sounds a warning chime.
- **Rear Vision Camera System –** Helps to increase rearward visibility. Utilizes a rear-mounted camera that projects a video image of the area behind the vehicle onto the navigation system screen when the vehicle is shifted into Reverse.

INTERIOR

- **Refined interior –** Chrome and woodgrain accents provide elegance and sophistication to Denali's interior.
- **Interior colors –** The upscale interior is available in two colors: Ebony and Cocoa/Light Cashmere.
- **Luxurious leather upholstery –** Tone-on-tone, ultra-soft Nuance perforated leather-appointed first row and leather-appointed second row seats.
- **Full-feature front seats –** To ensure maximum comfort, Denali models feature standard power-reclining front buckets with adjustable head restraints, 12-way power adjustability, power lumbar, power recline, heated and cooled seat cushions and seatbacks and 2-position driver memory.

- **Second row captain's chairs with power-release fold-and-tumble feature –** Dual leather-appointed, reclining buckets with heated seat cushions are standard. A leather-appointed, 3-passenger 60/40 split-folding bench with outboard heated cushions is available. For interior flexibility, both seats automatically fold-and-tumble forward at the touch of a button located on both the overhead console and on the door pillars. Seats are easily returned manually to the original position.
- **Standard third row seating –** A 3-passenger 50/50 split-folding bench is standard. Each side can be separately folded "on demand" for additional cargo space or easily removed to create more cargo area.
- **Large center storage console –** Has impressive volume at 20.1 liters—large enough for a purse. Dual cup holders can be placed in two different positions or removed to allow room for other items—like a cell phone or the available ashtray. Includes two rear cup holders for second row passengers.
- **Deluxe power-tilt steering wheel –** Comfortable, leather-wrapped wheel includes controls for audio and cruise control.
- **Heated steering wheel –** For the ultimate touch of luxury and comfort, a heated steering wheel is standard.
- **Power-adjustable pedals –** Can be positioned to help drivers of all sizes find a comfortable driving position.
- **Automatic tri-zone climate control –** Capable of maintaining a 30° temperature difference between driver and front passenger. Includes auxiliary rear air conditioning.
- **Impressive cargo capacity –** With all seats upright the cargo area behind the third row seat is an impressive 16.9 (45.8 XL) cubic feet. With just the first and second row seat, the cargo capacity grows to 60.3 (90.0 XL) cubic feet of cargo area. With just the first row seats upright, Yukon Denali has a massive 108.9 (137.4) cubic feet of cargo capacity—enough room to carry 4' by 8' sheets of plywood.
- **Side Blind Zone Alert –** Uses radar beams to sweep for traffic and triggers a visual icon alert in the outside rearview mirror if vehicles are traveling in Denali's blind spot.

INFOTAINMENT

CONNECTIVITY

- **OnStar –** The Directions & Connections Plan is standard for the first six months on Denali and combines all the Safe & Sound Plan services with Turn-by-Turn Navigation, eNav and Destination Download. Learn more at onstar.com.
- **Bluetooth for Phone –** Enables connectivity between cell phone and the vehicle's audio system for hands-free calling ability.
- **Driver Information Center –** Includes a trip odometer, message center, compass and temperature displays and other features that allow drivers to personalize their vehicle.
- **Remote Start System –** Allows driver to precondition the vehicle interior—on cold days, the interior can be pre-heated and on hot days, the interior can be pre-cooled. Range is up to 200' away.

ENTERTAINMENT

- **Sun, Entertainment and Destinations Package (PCJ) –** Includes additional nine months of SiriusXM Radio and NavTraffic service, power sunroof and rear-seat DVD entertainment system.
- **Bose Centerpoint surround speaker system –** 10-speaker system includes enhanced performance amplification, AudioPilot noise reduction feature and subwoofer.
- **SiriusXM Radio –** With a 3-month trial to the 'XM Premier' Package, you'll enjoy over 140 channels, including commercial-free music, all your favorite sports, exclusive talk and entertainment. Find out more at siriusxm.com.
- **SiriusXM NavTraffic –** Standard on all Denali models and includes three months of trial service. NavTraffic enhances your vehicle's GPS navigation system by showing real-time traffic data when it's needed most—while you're driving. Visit siriusxm.com/navtraffic for more information.
- **Rear-seat entertainment DVD system –** Available system allows three different audio sources to be enjoyed simultaneously through a combination of vehicle speakers, wired headphones and two-channel wireless headphones. Includes CD/DVD player, 8" flip-down wide-screen display, two wireless headphones and remote control. Also includes a third row screen on XL models.

NAVIGATION

- **Standard navigation system –** Includes large touch-screen display, MP3-compatible CD player, 30GB hard drive, voice recognition, Time Shift Recording capability, auxiliary input jack, USB port and Rear Vision Camera.
- **Turn-by-Turn Navigation –** OnStar Directions & Connections Plan is standard for the first six months. Learn more at onstar.com.

POWERTRAIN

ENGINE

- **Vortec 6.2L VVT FlexFuel V8 engine –** For excellent performance and efficiency, Denali and XL Denali's standard engine uses an advanced Variable Valve Timing (VVT) system. The VVT system enhances torque at low rpm for responsive launches and increases horsepower at high rpm for better passing ability. VVT also improves fuel efficiency while reducing exhaust emissions. E85 FlexFuel capability allows the engine to run on any combination of gasoline and E85 fuel.
  - 403 hp @ 5700 rpm.
  - 417 lb.-ft. of torque @ 4300 rpm.
- **Active Fuel Management –** Allows for increased fuel economy by automatically shutting off four cylinders under light load conditions, which transforms the V8 into an efficient 4-cylinder. When full power is needed, all the cylinders are seamlessly reactivated.

- **Active Noise Cancellation (ANC) –** Uses the audio system to negate a targeted noise frequency. This allows for lower engine idle speeds, which helps reduce fuel consumption and minimize engine noise.

TRANSMISSION

- **Hydra-Matic 6-speed automatic transmission with Driver Shift Control (DSC) –** Allows the driver to select a range of gears and/or manually control shifting as driving conditions warrant. Tow/Haul mode holds gears longer to reduce "hunting" and to deliver more torque for smooth heavy-load hauling.
- **Normal Mode Powertrain Braking –** Automatically drops the transmission into a lower gear on downhill grades to help slow the vehicle.
- **Standard trailering equipment –** Includes a weight-distributing hitch platform, 7-wire harness with independently fused trailering circuits and a 2" trailering receiver. In addition, a factory-installed trailer brake controller is available. Heavy Duty Trailering Package is also standard.
- **Maximum towing, 2WD/AWD (lbs.):**
  - Yukon Denali: 8300/8100.
  - Yukon XL Denali: 7900/7800.
- **Maximum payload, 2WD/AWD (lbs.):**
  - Yukon Denali: 1609/1615.
  - Yukon XL Denali: 1461/1463.

RIDE & HANDLING

SUSPENSION

- **Class-leading suspension –** The coil-over-shock front suspension is tuned for superior ride and handling on all road surfaces. The refined 5-link rear suspension provides exceptional isolation, ride quality and handling.

- **AutoRide Suspension Package –** This system provides a refined ride and exceptional agility to help ensure a superb ride under a variety of road conditions. Includes:
  - Rear level control – For a stable, level ride height under any load or passenger conditions, this system constantly senses and adjusts rear suspension height. Rear level control uses an onboard compressor that pressurizes the air bladders inside the rear shocks until the vehicle is level. Because this chamber is separate from the damping system of the shock absorbers, ride quality remains consistently comfortable.

BRAKING

- **4-wheel disc antilock brakes –** ABS can detect impending wheel lock-up, and then pulse that wheel's brake to prevent it.
- **Brake Assist –** Senses when you abruptly apply the brake pedal and applies more braking force before your foot presses the pedal all the way to improve reaction time in a panic brake situation.

- **Hill Start Assist –** Holds vehicle in place when parked on an incline, senses potential "rollback" and then holds full brake pressure when you lift your foot from the pedal. It gives you extra time to apply power and drive off.
- **Trailer Sway Control –** Uses StabiliTrak sensors to detect a swaying trailer and then applies the vehicle's brakes and the trailer brakes (if properly equipped) to bring it back in line.
- **Trailer brake controller –** Located close to the steering wheel for easy adjustments.

HANDLING

- **StabiliTrak with Proactive Roll Avoidance and Traction Control –** Aids stability.
- **Full-time AWD.** Available.
- **Rack-and-pinion steering.**
- **Automatic locking rear differential (G80) –** Automatically locks the rear wheels together when slippage is detected.

WHEELS

- 20" chrome aluminum wheels standard.

SAFETY & SECURITY

Yukon Denali delivers comprehensive safety before, during and after a collision.

BEFORE

- **Antilock Braking System (ABS).**
- **Brake Assist.**
- **Hill Start Assist.**
- **StabiliTrak Stability Control System with Proactive Roll Avoidance.**
- **Traction Control.**
- **Tire Pressure Monitoring System** (does not monitor spare).
- **Side Blind Zone Alert –** Uses radar sensors on the rear sides of the vehicle to sweep for traffic and triggers an alert in the outside mirror. Helps drivers avoid lane-change crashes with vehicles in the blind zone.

DURING

- **Safety cage construction.**
- **Dual-stage front air bags.**
- **Head-curtain side-impact air bags for all outboard seating positions.**
- **Seat-mounted driver and right front passenger side-impact air bags.**

AFTER

- **OnStar –** Automatic Crash Response.

SECURITY FEATURES

- **PASS-Key III –** Disables the engine without the properly encoded key.
- **OnStar with Stolen Vehicle Location Assistance –** Helps law enforcement recover vehicles.

ACCESSORIES

When your customers need to personalize their vehicle, improve their comfort level, add convenience, and compliment their style, look no further than GMC accessories. They are factory-tested and engineered for each vehicle and are backed by a 12-month warranty for manufacturer defects.

OVERVIEW

The Platinum model is the top-of-the-line Sequoia, which also offers SR5 and Limited configurations. The Platinum trim level adds numerous comfort, convenience and styling enhancements but retains the same engine as the lower-level Sequoias.

YUKON DENALI ADVANTAGES

- **More comfort and convenience -** A power second row seat release, Remote Vehicle Start and power-adjustable pedals are not available with Sequoia.
- **More head room -** Yukon has greater head room than Sequoia, regardless where you sit in the vehicle.

✓ = Yukon Denali Wins	2014 GMC YUKON DENALI AWD		2014 TOYOTA SEQUOIA PLATINUM 4WD
TECHNOLOGY & INFOTAINMENT			
Telematics system	OnStar	✓	Entune
Built-in hands-free calling (without the need for a cell phone)	S (requires purchase of hands-free minutes)	✓	-

YUKON DENALI ADVANTAGES

- **Superior connectivity with OnStar RemoteLink - The Toyota Sequoia Entune mobile app is less capable and cannot remotely check vehicle diagnostics, lock/unlock doors or start the vehicle.**
- **OnStar built-in telephone advantage -** The OnStar system on Yukon Denali includes an embedded telephone, which permits hands-free calling without the need for a cell phone. Toyota Sequoia Platinum requires a linked cell phone to place calls.

[1] Gasoline horsepower, torque and mileage figures shown.

YUKON DENALI ADVANTAGES

- **Better mileage -** Yukon achieves better mileage than Toyota Sequoia Platinum and has a longer maximum driving range between fill ups.
- **Greater capability -** Yukon Denali has a larger, more powerful engine and can tow 1100 pounds more than Sequoia Platinum 4WD (8100 vs. 7000 lbs.).
- **Superior towing experience -** Denali features Hill Start Assist and an available integrated trailer brake controller, features not offered with Sequoia.
- **Better rear axle traction -** All Yukon models feature a standard heavy duty automatic locking rear differential. Toyota Sequoia makes due with an automatic limited-slip differential that employs the vehicle's brakes to limit wheel spin.

S = Standard A = Available – = Not available

YUKON DENALI ADVANTAGES

- **Safety after an accident -** The peace of mind of OnStar's Automatic Crash Response is standard on Yukon. Since Toyota's Safety Connect collision notification is not available, Sequoia does not offer an equivalent feature.
- **More peace of mind -** Yukon provides outstanding ownership coverage with 40,000 more miles of powertrain warranty coverage.

OVERVIEW

The Lincoln Navigator L, an extended version of the Navigator, is the largest vehicle Lincoln currently offers. The 2014 model is largely carryover from 2013 since a redesigned Navigator is expected for the 2015 model year.

YUKON DENALI ADVANTAGES

- **More convenient third row access -** Yukon XL Denali is standard with a power second row seat release that automatically unlatches with the touch of a button. A power center-row release is not available with Lincoln Navigator L.
- **More cargo room -** Yukon XL has greater cargo room than Lincoln Navigator L regardless of where the measurement is taken—behind front, center or rear seats.

Rear-seat DVD entertainment	A		A

YUKON DENALI ADVANTAGES

- **OnStar built-in telephone advantage -** The OnStar system on Yukon Denali includes an embedded telephone, which permits hands-free calling without the need for a cell phone. Lincoln Navigator requires a linked cell phone to place calls.
- **Superior connectivity with OnStar RemoteLink -** OnStar RemoteLink is standard with Yukon XL and allows owners to remotely check vehicle diagnostics, lock/unlock their doors, start their vehicle and do much more from anywhere they have mobile phone service. The Lincoln Navigator L Sync system cannot remotely check vehicle diagnostics, lock/unlock doors or start the vehicle.

[1] Gasoline horsepower, torque and mileage figures shown.

YUKON DENALI ADVANTAGES

- **More horsepower and torque -** Yukon XL has a larger, more powerful engine with 93 more horsepower and 52 more lb.-ft. of torque.
- **Standard load-leveling suspension -** Yukon XL Denali has a standard load-leveling suspension. A load-leveling suspension is part of a $595 option package on Lincoln Navigator L.
- **Superior rear axle traction -** All Yukon XL models feature a standard heavy duty automatic locking rear differential. Lincoln Navigator L is only available with an open differential.

Standard courtesy transportation	5-year/100,000-mile	✓	-

S = Standard A = Available – = Not available

YUKON DENALI ADVANTAGES

- **Crash avoidance -** Side Blind Zone Alert is standard on with Yukon XL Denali. This important safety feature is not available on Lincoln Navigator L.
- **More Security -** Lincoln Navigator L does not offer comparable features like OnStar's Stolen Vehicle Slowdown, which helps police recover a stolen vehicle by gradually slowing it down, or Ignition Block, which remotely prevents a vehicle from starting once it has been turned off.
- **More peace of mind -** Yukon XL provides outstanding ownership coverage with 30,000 more miles of powertrain warranty and roadside assistance coverage than Lincoln Navigator L (5 years/100,000 miles vs. 6 years/70,000 miles).
